BICERIN

Authentic  Italian

BICERIN DI GIANDUJOTTO

Turin is one of the Chocolate Capitals of Europe. The idea of mixing hazelnut pieces to "standard" chocolates was born during Napoleonic Wars when importing cocoa from South America became difficult due to the English blockade. With "raw" cocoa's high prices, local chocolatiers started incorporating bits of roasted hazelnuts (which were locally grown and readily available in Piedmont) to make the final product more affordable. Thus was created Giandujotto. Caffè Bicerin added the Giandujotto to coffee in the early 19th century to create Bicerin di Giandujotto. Giandujotto chocolate was used to create Nutella in 1946.

Bicerin di Giandujotto (15% Alcohol) has a nose of rich intoxicating chocolate and hazelnut that reveals a thick chocolate texture with subtle hazelnut with a long and savory finish.

Pour Le Vin 'Bonne Mine' Rosé, Vin de France 2024

FPB9455 BOUTINOT FRANCE LANGUEDOC, FRANCE | 2.5%

Screwcap

Bonne Mine "Looking well" for this pretty, pink rosé.

PRODUCTION

Pour Le Vin is an energetic range of wines made from grapes sourced in the Languedoc and Gascony, providing the perfect balance between ripeness and freshness. They are made to showcase the best of French winemaking, and with a selection of five different grape varieties there is a wine for every occasion. Each wine is named after a different French idiom that represents its style and personality. These are wines made for sharing and socialising, and their labels are great conversation starters! Bonne Mine literally translates as "Nice face", but is used when someone is looking well. Grenache Noir is gently pressed and the bright, delicate colour from its skin is preserved alongside the ripe, crunchy, red fruit flavours.

TASTING NOTES

This is a pretty, yet vibrant, pale pink rosé with attractive, soft, berry aromas. Smooth, round and juicy, and a great reminder that outstanding dry rosé need not always come from Provence!

FOOD PAIR

Made for sharing with friends, outdoors, on a summer evening.

ALAIN de la TREILLE Pinot Noir

France – Loire Valley – Vin de France

ABOUT MAISON ALAIN de la TREILLE

Alain de la Treille was a farmer and wine enthusiast, who grew up in Touraine & spent his life promoting the Touraine area and Loire Valley wines. He became great friends with Jean-Claude Bougrier, a winemaker from Saint Georges sur Cher. The two could spend hours talking about Loire Valley style, terroir and how to improve the vinification process.

When Alain passed away in 1985, Jean-Claude decided to create a wine brand to pay tribute to his good friend, and Alain de la Treille wines were born. Jean-Claude's son Noël took over in 1988, becoming the fifth generation of his family to make wine. Noel created 3 cellars, widening the wine growing area of the estate to the entire Loire Valley, from Sancerre to the Pays Nantais. Noël Bougrier still runs the winery today, with help from son Nicolas and daughter Sophie.

The vineyards cover 100 hectares (247 acres), with vines averaging 25 years old. Wines are made under the direction of Lionel Métaireau. A sixth-generation winemaker, he is native of Le Pallet in the Muscadet vineyard, close to Nantes.

ABOUT THE WINE

This Pinot Noir is beautifully balanced with an elegant ruby robe. The mouth is velvety with black cherry & earthy notes. Vines are located outside the AOC boundaries, hence the Vin de France classification.

FOOD MATCH

Ideal as an aperitif, to accompany starters and light, not overly sweet, desserts. Best served chilled.

TASTING NOTES

Pale yellow in color with green tones, the nose is very clean with delicate floral notes. The palate is creamy - from the fine mousse, well balanced with citrus flavors and a long finish.

PRODUCTION

Produced from, carefully selected, grapes grown in the vineyards of Penedes and picked early September. Following a cold maceration in pneumatic presses, the must is fermented in stainless steel tanks at 57F (14C). In January, a process called 'tiraje' takes place where the new wine is bottled and the second fermentation occurs in the bottle. The cava is stored in 'rima', special containers for holding the bottles in position, for a minimum of nine months before being disgorged, receiving a dosage, and being labeled.
